Who we are...

Phillips Rema Group is an international engineering and technical services business that supplies capital equipment and parts, specialist maintenance and advisory services, and toll powder processing facilities.

Our customers are world-class processors in a range of industries including pharmaceutical, aerospace, fine chemicals, steel and cement manufacturing.

Bringing together a number of specialist businesses, each one highly respected in its own field, and with engineers and equipment located across Europe and Africa, Phillips Rema provides its customers with comprehensive support for rotary vessels and all aspects of the powder processing industry.
